## DEMACOGUES ARE PLAYED BY HALL

Lecturer Says Educational Program Is Needed to Combat Politicians.

A new educational program and simplification of the voters' task by the short ballot, were the remedies suggested by Arnold Bennett Hall, of the political science department, University of Wisconsin, as a means of doing away with the political demagogue in his address before the Woman's History club Saturday afternoon at the Janesville high school.

Professor Hall stated that the power of the demagogue varies in inverse ratio to public intelligence. For instance he does not capitalize on anything that people are acquainted with. But he reaches glorious heights in supporting and advocating solutions of problems that the public knows nothing about. As examples the speaker said that politicians did not make capital out of the income tax amendment, for the public understood it, but they did make capital out of the new currency law, which no one knew anything about, because a plank in a political platform.

How Demagogue Functions.

The speaker named the five principles on which the demagogue works or makes his appeal, illustrating each. First, he said, demagogues have inherited the conviction that they must give a rousing cheer every time the Monroe doctrine is mentioned. Any candidate supporting this doctrine comes immediately into favor, although the people who give their support to him haven't the slightest idea what the Monroe doctrine is about or whether it is a good thing or a bad thing. The American people, Professor Hall said, have inherited certain convictions which they have never analyzed and which politicians build platforms.

Second, the power of suggestion is utilized. In this the first principle, that of exploiting convictions, comes in. As an example the speaker told of the Northcliffe newspaper policy which ousted the Asquith ministry in England merely by running a streamer on the newspapers every day for 30 days suggesting that the ministry was wobbling. Every place that the Englishman looked to was confronted with a phrase which said that the ministry was wobbling. The effect was that suggestion ruled and a clamor set up that the Asquith ministry must go.

Third, demagogues use the power of suggestion. In America, too, Professor Hall said, people are convinced by headlines, because instead of reading the papers they are but glanced at. Consequently, he said, the headline writers of this country control the destinies of America today.

The third bait on which the politician feeds the voter is the utilization of prejudices and hatreds, racial and religious.

"Until we bury our hatreds we cannot serve our state intelligently," the speaker said. "Often the most intelligent people entirely lose their perspective when confronted by a prejudice or hatred. In Wisconsin, especially, is not a man feeling that the Irishman is either a devil or a god. Until we have the capacity to see things in balanced relations nothing can be hoped for by way of improving political situations."

Fourth is the tyranny of established phrases.

"Our ideas are so completely petrified," he said, "by words or phrases that we know nothing about nor do we take the trouble to analyze."

Illustration of this point he said that politicians have used the word "directly understood" and that no man unless he is standing still can escape being on the side of one or the other. Yet these two words are injected into politics and interpreted by the gutter-level voter in grave terms.

Fifth in the elements of the demagogue's theories is the power of flattery. By flattery political speeches complimenting the voters upon their unusual intelligence, many a candidate wins.

Knowing that the attitude which animates the voter is entirely personal, political platforms are made which will appeal and gain the support of the common man. The intelligent man becomes intelligent; it becomes difficult for honest men to enter the field of politics, Professor Hall stated. In political affairs, American people do not place the same amount of intelligence as they do in the ordinary daily events.

Must Train Children.

Training of the children in the schools in citizenship, careful reading of the press, comparing of newspapers, will in a measure prepare citizens in later life to resist and arrive at intelligent conclusions regarding the great problems of the day. The long ballot, Professor Hall said in conclusion, confuses the average voter, as he probably does not know the qualifications of all the candidates and votes according to his prejudices.

"As long as presidential campaigns are such as we have had in the past, such trouble as now exists in Washington will continue. The only qualifications which the late Warren G. Harding had for office were his unquestionable honesty and good-fellowship. In all his political career he

## SUGGESTIONS FOR HOME PLAY WEEK

A Home Track meet will afford much amusement for even a small family, but will be all the more fun if some of the neighbors are invited to participate. Father and mother should take part in each contest along with the children. The following events are suggested:

- Shot Put—Place a basket 30 feet from a line and throw six marbles into it (if you can).
- Smile for a Minute—Measure the width of the mouth when smiling.
- Drinking Contest—Each player has a glass of water and spoon. The winner is the one who can drink his first, a spoonful at a time.
- Thirty Inch Dash—Chew a 30 inch string at the end of which a piece of candy is attached. Bring the candy to the mouth unaided by the hands.
- Sack Race—Blow up paper sacks and run.
- Hurdle Race—Push peanut along a yard stick with nose.
- Standing High Jump—Jump for doughnut hung from ceiling.
- Back Race—Carry an egg on (napkin) from the front door to the rear of the house and back. (If mother fears for rugs, boil the eggs first).
- Rolling Round Jump—Folded arms, heels together and knees rigid. See who can jump the greatest number of inches holding this pose.
- Feather Race—Provide each contestant with a small chicken feather. Each tries to blow his or her feather the shortest possible time.
- Bubble Race—Each contestant is provided with a bubble pipe. At a given signal each blows a bubble. The one whose bubble is largest and remains in the air longest wins.

## THE PARENTS' PLEDGE

Parents are asked to sign the following pledge in the interest of Home Play.

We agree to co-operate in the Home Play campaign by carrying out two or more of the suggestions checked below during the week, Mar. 1-5:

Name \_\_\_\_\_  
Address \_\_\_\_\_  
No. Children \_\_\_\_\_

School \_\_\_\_\_

It is understood that this pledge does not cover any play-time provision that is already being made by parents. The object is to stimulate additional home play and the obtaining of new home play equipment.

- 1. Prepare a play space, indoors or outdoors.
- 2. Sewing, indoor or outdoor (especially for smaller children).
- 3. Reading, indoor or outdoor (for older boy or girl).
- 4. Sand-box, in yard or basement.
- 5. Build a sand-castle with tools and materials for either boy or girl.
- 6. Equipment for indoor floor or table games.
- 7. Equipment for outdoor games.
- 8. This may be one or more of the following: Playground ball for younger children, equiset set, volley ball and net, tennis outfit, baseball and bat.
- 9. Equipment for outdoor life, such as swimming, hiking, boating, canoeing, and photography.
- 10. Equipment and materials for gardening and setting aside of a garden space for children's garden.
- 11. Subscription to boys' or girls' magazines.
- 12. Musical instrument, phonograph, music lessons, music memory game, or other good records for children.
- 13. Kindergarten play apparatus for little children.
- 14. Radio receiving set.
- 15. Story telling three times during Play Week.
- 16. Play time, parents with children, three times during Play Week.
- 17. Pets—chickens, rabbits, birds, dogs, etc.
- 18. Family or neighborhood sing, once during Play Week.
- 19. What to Do With Pledges.

Janesville parents having children in public or parochial grade or high schools should send signed pledges to these schools. If children from the same family attend school in different schools, signed pledges should be sent to each building. Janesville parents of pre-school age children should send signed pledges to the Gazette. Parents of pupils attending schools outside of Janesville will be notified by announcements from their teachers as to whether pledges are to be sent to the school. If no word is brought home by the children, pledges should be mailed to the Gazette.

## STARTS EXAMINING ST. MARY'S PUPILS

Miss Grace Amerpol, city school nurse, has completed the examination of 400 children in the Adams school and will commence examinations in St. Mary's parochial school this week. Teachers of the Adams parochial school association co-operated with the nurse in copying the records, the same as members of the Washington association did when pupils in those schools were inspected. The St. Mary's association will also assist in the work it is expected.

never demonstrated any conviction on any subject. He was a weak man and therefore a popular candidate with the people."

## SCARLET FEVER LOSES GROUND

Not One Case in February After 14 Reported in Preceding Month.

After experiencing 14 cases of scarlet fever in January, Janesville went through the month of February without a single case of this nature, Dr. J. J. Woodworth, city health officer, states in his February report to the city manager.

"This is indeed gratifying to note, as there was not a month of 1923 when cases were not reported and the number reached its highest mark during December when 16 cases of scarlet fever were reported," says Dr. Woodworth. "There is great difficulty in controlling scarlet fever, due to the existence of so many mild and atypical cases. These good results can be accounted for only by the splendid cooperation given this department by our people, the teachers and attendance department of our public schools, the city nurse and the medical profession, who have reported all suspicious cases to this department."

28 Contagious Cases.

A total of 28 cases of contagious disease are reported by Dr. Woodworth for the month of February, as follows: Chicken pox, 12; measles, 6; diphtheria, 2; whooping cough, 2; and one each of smallpox, pulmonary tuberculosis, influenza, and mumps.

Some of the health officer's work for the month is recorded by the following: Examinations made for communicable diseases, 71; interviews of public health work, 21; complaints investigated, 11; inspections, 12; calls for disinfection, 17; calls at detention hospital, 3; cases of communicable diseases removed from homes, 6; throat cultures for suspected diphtheria, 6; calls at quarantined homes, 6; calls at city schools, 1; calls for check-up on contacts, 2; physical examinations, 8; letters, 50; notices, 13.

Nurse Gives Demonstrations.

In addition to the regular visiting nursing in February, Miss Hilda Anderson, visiting nurse, reports that she gave three baby feeding demonstrations and two home demonstrations showing how to cut out and sterilize gauze. Two cases were referred to the Kivimaki clinic, two to the Associated Charities, one to the poor commission, one to the Catholic Relief, and one to the Salvation Army.

Miss Anderson furnished clothes for five babies and distributed chicken broth to five needy families, besides distributing prenatal, infant feeding and child care literature to a number of mothers.

She reports a total of 201 visits to 47 homes during February, 40 hours spent in office work and 63 interviews.

524 Pupils Inspected.

The inspection of 524 pupils is reported for February by Miss Grace Amerpol, school nurse, 430 having been found to have defects, the majority of them teeth and tonsils. Ninety cases of rotter tendency were noted. Defects of the 430 pupils found having them are listed as follows: Teeth, 400; tonsils, 250; vision, 280; eyes, 2; hearing, 100; nose, 100; throat, 40; speech, 30; glands, 4; skin, 18; bones, 2; nerves, 18; mouth, 170; posture, 20. Of the 5 examined, 40 were found to be per cent below normal weight, and were 20 per cent above normal weight.

Seven children were sent to a dentist, 5 to health center, 5 to an oculist and three to family physician while one was excluded from school. In addition, Miss Amerpol reports hours spent in office work, 42 1/2 and eight home calls. Notices sent to parents totaled 485.

"Several of the parents," says Miss Amerpol, "who have helped me with these examinations have been much better satisfied since they have seen how the defects in their own children are determined."

Protection of Foodstuffs.

Dr. J. J. Woodworth, city sanitary inspector, reports that during February he placed emphasis on the following things:

Clean-up of the dirty corners; paint and plaster for places needing it; ventilation of buildings; protecting foodstuffs from dirt and dust; examining canned goods for swollen tops; proper labeling of foodstuffs; enforcing the milk ordinance; seeing the garbage ordinance was properly carried out; working in co-operation

with the health officer in certain cases.

Dr. Woodworth lists 192 inspections, as follows: Bakery, 5; confectionery, 12; grocery, 51; hotel, 7; meat market, 13; restaurant, 26; saloon, 10; soda fountain, 32; miscellaneous, 19.

Investigation of the following 26 complaints is reported: Drunkenness, 14; toilets, 1; dumping, 7; others, 4.

Other work consisted of: Interviews, 92; alley inspection, 5; office work, 61 hours; milk inspection, 2 1/2 hours; interviews on milk, 5; notices, 44; industrial inspections, 5.

## Ever carry an umbrella?

If not, you do not care for a "Joint Savings Account," which will furnish either you or your husband with ready cash in case of any emergency that happens to the other.

But if you prepare for the emergencies of life, you want this protection. Bring in a dollar tomorrow and start your account in her name. Build it up with little savings from time to time. Soon you will have a fund, constantly growing with compound interest, which will smooth the road for one of you when the emergency comes.

Seven children were sent to a dentist, 5 to health center, 5 to an oculist and three to family physician while one was excluded from school. In addition, Miss Amerpol reports hours spent in office work, 42 1/2 and eight home calls. Notices sent to parents totaled 485.

"Several of the parents," says Miss Amerpol, "who have helped me with these examinations have been much better satisfied since they have seen how the defects in their own children are determined."

Protection of Foodstuffs.

Dr. J. J. Woodworth, city sanitary inspector, reports that during February he placed emphasis on the following things:

Clean-up of the dirty corners; paint and plaster for places needing it; ventilation of buildings; protecting foodstuffs from dirt and dust; examining canned goods for swollen tops; proper labeling of foodstuffs; enforcing the milk ordinance; seeing the garbage ordinance was properly carried out; working in co-operation

## Moving "Fever" New Infection. Says Garbage Man

Joseph Schindler, city garbage collector, declares that "moving fever" has been struck by a new "infection" which is hard to control and which is having a great effect on his business. He calls it the moving "fever" and says it is quite prevalent in the spring months, thus discommoding his work for a time.

"When people move," Mr. Schindler declared to the health department, "they should put up the garbage collection cards in their windows because they might be moving into a home where there has been no request for collection. If they don't put up cards, they can notify me by telephone and not wait until their cans are filled to overflowing."

Mr. Schindler says there has been a marked increase in collections, the total for the month of February being 45 tons. New people are being added to the list daily, he reports. One hundred and twenty-five boxes are being fed with the garbage collected in Janesville, with corn used as an auxiliary feed.

PARDEEVILLE WILL  
HEAR ALONZO POND

Alonzo V. Pond left Monday for Pardeeville where he will appear Monday night before the Pardeeville Study club, presenting his lecture: "The Jackson Play of Chatterbox." The Latin club of Janesville high school has engaged Mr. Pond for a lecture Wednesday afternoon on, "Seizing Europe (an American Story)." The young Janesville archaeologist and lecturer expects to leave May 1 for Europe to gather prehistoric relics for the Beloit college museum.

## CITY PAYS \$40,000 IN STATE TAXES

Janesville settled in full for its 1923 state taxes Saturday, when the department of finance sent checks totaling \$40,657.56 to County Treasurer A. M. Church. The city received a credit of \$585.10 when the tax commission ruled that the state must bear its share of the loss sustained by the compromise with the national banks on their 1922 taxes.

## Don't Leave Film

On your pretty teeth

See how this new way combats it

Your teeth are coated with a viscous film. You can feel it now. Even when you brush teeth, much of it clings and stays.

That is your teeth's great enemy. That is what mars their beauty, that is what destroys them. Let this free test show you how millions now combat it.

That cloudy coat

Film is that viscous coat you feel. It clings and stays, because old-way brushing cannot effectively combat it.

Soon it becomes discolored, then forms dingy coats. Teeth by the millions thus become unsightly.

Film also holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea. No one can hope to escape such troubles without fighting film.</

# Merrick Grabs Second in A. B. C. Singles With 675 Count

## Holds Top Place an Hour, Sunday; McNeils, Fourth

Chicago.—Brushing the sticks aside with a great count of 675, Earl Merrick of the McNeil Hotel team of Janesville, galloped into second place of the singles of the national American Bowling congress tournament here, Sunday. While he was making his big count, Milt Cook, of the same team, was pushing his way into fourth place with 667. The work of these two lads followed the performance of the McNeils when they shoved their way into fourth place of the team event Saturday night with a great aggregate of 2,825, placing themselves right behind story Levenick's Dugouts of Madison.

**NIGHT** on top of the notice calling for a meeting of the Wisconsin state league, coming in the Wisconsin story out of Green Bay to the effect that the circuit is weak in the pocket-book, June in interest and generally speaking has the "hectic" feeling. Most serious of all is the sentence in the story: "The 'home player' idea appears to be growing in favor in nearly all of the cities of the circuit. The clubs that have the money would rather continue under the old way but they will probably be forced to cut their expense account. Kankakee, the smallest city in the circuit, is willing to carry on but the managers want more home town products used and in this way reduce costs."

**DURING** the early winter months, this column quoted Walter Harris, former owner of the Fond du Lac club, to the effect that there were many things very wrong in the Wisconsin organization, but salaries with mediocre playing in return, with most of the gate receipts going into the hands of "club" players, he said were at the bottom. There were instant calls of "No 'tain't true," but the rush at objection only showed there was fire in the smoke.

**TWO CLUBS** made a little money. Neenah-Menasha and Sheboygan, Appleton made a 50-50 split on the expenses of a trip to the home boys. Fond du Lac, Green Bay, Kankakee, Marinette-Menominee, the combined club, are reported to have sunk a 50-50 split on the expenses of a trip to the home boys. Joe More, New York, won New Jersey outdoor skating title from Harry Kasky, Chicago.

Marquette, Mich., and Duluth, Minn., tied 1-1 in hockey league.

**BASKETBALL DRUMBES.** Chicago given setback in Big Ten race by losing Saturday night to Michigan, 24 to 23. This puts Purdue in tie with Minnesota, and makes Indiana, but only one game last week. Monday night, Purdue is to meet Iowa and the outcome may see Purdue on top of the pile with one game to go.

State, another favorite, took a ship Saturday night when they dropped before Minnesota, 41 to 28, and as a result the Buckeyes are just a few points ahead of the Badgers. Wisconsin came to life on Saturday and as was expected knocked a heating in the North Division, Sunday.

Monday night, Ohio, McNeils' men and Ohio play at Madison and as the outcome the Badgers may find themselves in hot water.

Michigan is to clash with Indiana, Monday night, and after these three games, the Badgers are in a great mix-up among the leaders. Tuesday night, Illinois plays at Northwestern, and this will have little bearing on the race. Purdue and Chicago are to battle on Thursday night in one of the most severe contests scheduled for the season, a game that may decide the title.

Next Saturday, the other great night is ready for the fans, Wisconsin playing at Iowa, Minnesota at Northwestern, and Michigan at Illinois.

Purdue leads the individual point getters with 115 made on 41 field goals and 25 free throws. Gibson took Wisconsin's scoring with 50 points.

## Janesville One of Teams Selected for Basket Meet

### Chevrolet Stops Bank Five, 25-12; St. Patrick's Win

Whitewater. — Janesville high school is one of those selected to compete in the district high school basketball tournament to be held at Whitewater normal school here, March 13, 14 and 15. This was announced Monday morning by Prof. Paul A. Carlson, chairman for the district.

Other teams chosen in the selection held Saturday are Elkhorn, Madison Central, Milton Union, Richmond Center, Stoughton and Whitewater City.

Whitewater normal and Palmyra high teams are to play in the normal school gymnasium here Wednesday at 8 p. m., to decide which shall enter the meet as the eighth team.

If Palmyra should win, the pairings for the first day will be Elkhorn vs. Palmyra; Janesville vs. Richmond Center; Madison Central vs. Stoughton; and Milton Union vs. Whitewater normal high.

Palmyra this year are defeated on an alphabetical basis in which 1 plays 6, 2 plays 5, 3 plays 4 and 4 plays 3.

Richland Center appears to be the best team in the meet, although it is a dark horse. Stoughton, Elkhorn and Madison Central have the next best records. Stoughton, however, lost to Milton Union last week, thus upsetting the odds a trifle.

The meet looks to be the strongest and most evenly matched in the history of the normal.

**SET TWO ELIMINATIONS FOR BLOODHOUND TOURNEY.** Bloodhound basketball eliminations games have been ordered by the committee in selecting teams for the district high school basketball tournament to be held here March 13, 14 and 15.

Games to be played are Elkhorn vs. Stoughton at Argyle Wednesday night, and Elkhorn vs. Stoughton at Argyle Wednesday night, and Elkhorn vs. Stoughton at Argyle Wednesday night.

The winners will be placed in the meet.

Six teams were definitely picked when the board met with Chairman Carl Mitterer at Argyle, Saturday. They are Elkhorn, Stoughton, New Glarus, Oregon, Monticello and Wisconsin high of Madison.

## Alert People Don't Wear Blinders

Alert people are not opportunity-shy. They don't wear blinders; they don't want to be imposed with smoked glasses—because where there are smoked glasses there is no fire of ambition.

Alert people do not see through a glass darkly. They are keen for opportunity—and scrutinize the A-B-C Classified Ads eagerly. They see the community's best and most remunerative offers—and accept those which meet their individual needs.

Nothing unfolds the vistas of opportunity like a survey of the A-B-C Classified Columns. Keen eyes have no difficulty in instantly unearthing decidedly profitable opportunities here. Everything is numerically classified and alphabetically indexed—reaching a degree of convenience plus.

There is no reason why you should wear blinders—or see through a glass darkly. The A-B-C Classified Section is at hand.

Be keen and alert—read it daily!

# The Value of Diversified Circulation

There is class advertising and class advertising mediums, but four out of five advertisers—AND ESPECIALLY LOCAL MERCHANTS—want and must have diversified circulation. By that term we mean readers from all ranks of society—people with small means and those with large—husbands and wives who can spend only perhaps \$25 to \$35 for a substantial dress or coat and those whose purse can afford garments from \$75 to \$150 and up—people who must save every penny and those whose means are much more ample—the family which has hard work to buy a Ford, the family who can afford the car ranging from \$2,000 to \$3,000 with other families of varying means buying cars in between the lowest and the higher priced.

But what does this all mean to the merchant who invests his money in The Gazette? It is simply this, that if his advertisements are read by

the rich and poor, big producers as well as small, the buying power takes in all the people of the community regardless of station in life. This constitutes what the best authorities regard as the most profitable medium in which to advertise all kinds of merchandise.

It is true that Janesville and the surrounding community may properly be called a community of wage earners, but here again the money earned (hence buying power) has quite a range. It may vary all the way from \$3.00 or \$4.00 a day to \$8.00, \$10.00 and \$12.00. These families all wear clothes, shoes, etc. They must have food, and literally thousands of them own cars or will soon. They are all possible customers for the merchant or business man of Janesville. Then besides this class we have those in clerical or salaried positions; they, too, have multitudinous wants to be supplied.

## How Much Weight Does Your Publication Carry With Its Readers?

That's the information the national advertiser seeks to know—he ponders over it, asks innumerable questions from many sources and finally determines on the medium to be used after examining all possible data. He, too, is interested in diversified circulation; because, as a rule, his commodity goes into the homes of the wage earner, manufacturer, business man or farmer. So when The Gazette carries practically all of the national advertising going out to Wisconsin newspapers, and in-

deed, some that other Wisconsin newspapers do not carry, it is indisputable evidence that these large buyers of space are convinced that this paper reaches the buying power in this community. Furthermore it is a testimonial of which The Gazette is proud because confidence in a person or institution based on investigation and directed from hundreds of miles away is mighty good evidence that the medium carrying such advertising is well worth while and possesses powerful reader influence.

### This Mark of Confidence is Well Worth Sharing By Local Advertisers

It might also be added that no retail business in Janesville attains its largest proportion without receiving the patronage of the mass of the public. That's just one more proof of The Gazette's value in that it does possess the confidence and support of citizens in every walk of life. These people are all prospective customers.

### Now Is the Time to Sell Goods at a Profit

This is profit-taking time—during the next two months literally hundreds of thousands of dollars worth of merchandise will be wanted by the great army of Gazette readers in Southern Wisconsin. This business will go to those aggressive merchants who will advertise their wares in The Gazette and let the public know what they have for sale and why they should be patronized. Will they see your advertising?
